March, 1962 .....	2,337	25.87	671	7.43	656	7.26	358,520	—5,614

Rate per 1,000 of mean population.  
Population estimates for periods subsequent to the Census of 30th June, 1961, represent the population ascertained at the census plus natural increase and recorded net migration since that date. As complete records of interstate migration are not avail-

able, the estimated population since 30th June, 1961, is approximate.

(c) Includes natural increase and net migration. See also note (b).

(d) Equivalent annual rates.

							Sept.	270	368	339

- (a) This index was first published in August, 1960. It has been compiled for periods from September Quarter 1948.
- (b) This index does not measure changes in price of all imports.
- (c) The indexes for "Goods Principally Home-Produced"

and "All Groups" have been reconstructed as from the base period by excluding potatoes and onions. For September, 1962, indexes comparable with those previously published, including potatoes and onions, were, Goods Principally Home-produced, 373; All Groups, 342.

(a) Includes tram, omnibus and trolley-bus services; under Municipal control until taken over by Metropolitan Transport Trust on 1.7.55. Trams ceased operating Hobart 21.10.60; Launceston 13.12.52.

(b) Monthly averages for annual periods; and monthly totals.

(c) Figures for 1938-39 are not comparable with those for 1952-53 and subsequent periods.

(d) Figures prior to 1955-56 are not strictly comparable with later figures due to acquisition by Metropolitan Transport Trust of omnibus services not included in previous statistics. See note (a) above.

(e) Not yet available.

(a) Up to and including 1958 average rainfall for each year (represented by 100) is the average over the period 1911-1940. As from 1st January, 1959, a long period average from a selection of representative stations is used.

## SEASONAL CONDITIONS—TASMANIA.

*Rainfall.*—During August, 1962, above-normal rainfall was received over most of the State. Only parts of the West Coast, extreme South-East, Eastern Tamar, King Island and extreme North-West Coast received falls less than normal. Even in these areas most falls were about 90% of normal.

Heaviest falls occurred along the West Coast mountains, Western Plateau and the hinterland of the Central North-West Coast, with falls from 10 to 15 inches. Most of the South-East, Eastern Derwent, and Midlands recorded two to four inches while from four to six inches were reported from the Upper East Coast, Eastern Plateau, Western Derwent, and most of the Northern districts.

Heavy rains in Northern areas on 13th and 14th caused moderate to severe local flooding in many northern rivers on 14th and 15th, continuing in the upper South Esk until the 20th.

*Temperature.*—Except in the far North-West where they were normal, mean maximum temperatures were below average everywhere with departures of 1° to 2° being representative. Means were close to normal on the Bass Strait islands.

Generally about the coast, mean minima were close to normal but negative departures were on the average about 1° inland, the largest being 2° at Shannon.

*Frosts and Snow.*—Widespread moderate to severe frosts were recorded on the 5th, 10th and from the 20th to 23rd inclusive. Local inland frosts were reported on most other days.

Heaviest falls of snow for the month occurred during the 20th to 22nd inclusive, the falls on the 21st being particularly widespread. Snow was reported from the East Coast and Highlands, the South-East (including the Tasman Peninsula) and Southern Midlands. Parts of the East Coast recorded their first snowfall.

*Crops and Pastures.*—Crops and pastures in practically all districts were in fair to good condition and a good season appeared likely.

Orchardists reported sufficient winter rain to last through until after blossoming and, given fine and mild weather, expected a good crop.

*Water Supplies.*—Good to excellent water supplies were reported from all areas.
